DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3-12-2002 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-4, 6-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The examiner notes that the claims have been extensively amended during prosecution to the point that they longer make sense. It is unclear how a "mixed resin layer" can "consist" or "consist essentially of polypropylene"; it appears that the term "mixed resin layer is no long applicable to that layer. Furthermore, it is unclear by virtue of the applicants' arguments if the term "polypropylene" is limited to just to "polypropylene homopolymers", or a single resin component (e.g. some type of polypropylene, homopolymer, block, or copolymer) .

Art Unit: 1773

Finally, section b) of the claims needs clearly state what is present. The description of the film structure should be separate from the description of the components, which make up the layer. It appears that the description of the polypropylene component is misplaced in the claim.

Furthermore, the examiner suggests languages such as "second resin layer" instead of "mixed resin layer".

Response to Arguments

4. Applicant's arguments with respect to claims 1-4 and 6-10 have been considered but are moot in view of the new ground(s) of rejection. The current claim language is confusing. The examiner has not applied Mizuno et al. 5,441,802 because it is unclear if the reference is applicable or non- applicable to the current claims.
